Hi Andrew,

Have you set a date & time with Middlebury and with Burlington for the SSO inspections in July? If so, please let us know for scheduling purposes.

Per your request for Middlebury documents, please find attached a map of the sewer system; the Electric Power Failure Plan (includes the Pump Station section from the OM&ER Plan); and the CSO Monitoring results from 2011.

I will get the OM&ER Plan for the Middlebury Collection System scanned and will e-mail it to you, hopefully tomorrow.

Best regards,

Liz Dickson

Jeff, and all -- One of the main reasons to bring up George is to give you guys a look at someone experienced in collection system inspections. So we'd really like to schedule it for a time some of ya'll can make it. I'll call Burlington, and propose July 22/23, 23/24, 29/30, or 30/31, but if any of those dates are bad for someone who wants to come, let me know ASAP so I could adjust things.

Also, Jeff, if you have an electronic version of either town's OM&ER plan, or the most useful CSO plan (the latest one, I would assume), it would be great if you can send it along.

Thanks all

Andrew

Andrew, Hi-

I haven't heard from Dave. Both Liz and I are tentatively available – we both need to check with Ernie (Kelley) regarding our participation. Plus I may have a vacation-related conflicts. My recommendation is to go ahead and schedule both inspections and we will attend if we can.

In terms of preparing or completing the inspections, the following may be of use:

- Vermont Statute (10 VSA § 1278) requires municipalities with WWTFs prepare and implement Operations, Management, and Emergency Response (OM&ER) Plans. One OM&ER plan needs to address the WWTF, pump stations, and stream crossings. A second OM&ER plan addresses the collection system. You can download a copy of the statute at: <http://legislature.vermont.gov/statutes/section/10/047/01278>. When we issued direct discharge permits to municipalities, we include a requirement that the municipality implement their approved OM&ER plans. We can provide copies of Burlington's and Middlebury's OM&ER plans as well as their discharge permits (although I assume you already have access to the permits).
- Burlington and Middlebury have completed numerous CSO studies which we can also provide.

Hope this helps and let me know if you have any questions.

Jeff
